Corporate Profile

# Our Story

BIG WINGS (PTY) LTD is an entity that exists and is based in Botswana, it was formed by locals whose ideas were to create quality and sustainable services ranging from construction of courts, building & civil engineering and transport services. Bigwings was registered under the intellectual properties Botswana in the year 2010

## Our Mission

We want to make affordable yet high quality projects atleast 95% of our work force being Batswana, our idea is to also provide employment to the youth of Botswana thereby contributing to our economy.

## Our Vision

Our aim is to put our efforts in increasing the mileage of our marketing by using technological resources at our disposal such as social media marketing, internet marketing and our website, this will help be known throughout our country and may also help us gain international projects, which will help our export trade.

## Our Values

### Commitment

Recognize and feel as our own all common goals and suggest improvements for its proper operation.

### Innovation

A clear commitment towards continuous improvement and search for creative and efficient solutions that can guarantee corporate sustainability.

### Teamwork

Encourage participation among each other so as to achieve one common goal, sharing both expertise and knowledge.

### Local Management & Empowerment

We are socially and culturally committed to our community. We give back to society what we receive from it.

About Bigwings

## Construction of Courts

The Company has undertaken several construction of tennis, volley ball, netball and basket ball courts successfully. See attached list of projects and photographs

## Building Construction

The Company has undertaken several building construction and maintenance projects successfully since its inception

## Civil Works

The Company has undertaken several civil construction and maintenance projects, e.g car- parking lots, road markings e.t.c; successfully since its inception

## Transport

The Company has recently started a transportation section. This is mainly in the transport of construction materials

The Vision of BIG WINGS (PTY) LTD is to be a company of choice in construction of sports facilities and contribute to the development of Botswana by creating employment for the citizens. And thereafter grow to operate in Southern Africa.

Our Solutions

## Why Us

Bigwings all weather surface is the first choice of professional tennis players and private users alike because;

### Bigwings All Weather Textured Surface

- Is playable while damp
- Is unaffected by extremes of temperature and is always comfortable underfoot
- Provides a consistently true bounce at a controlled speed
- Is non-slip in wet or dry conditions

### Surface Superiority

Bigwings has built over 100 courts, locally since 2010. Bigwings all weather surface is in such demand because;

- It is a 100% all -weather surface with quick drainage. A built in drainage slope ensures
- Equally quick water run-off and drying times after a deluge or a light shower.
- Bigwings base construction system is durability, reliability and time-tested
- The barracote colors are attractive & non-fading
- Our technical division is constantly refining and improving the surface. Barraflex, the innovative luxury cushioned inter-lay for a more resilient Surface, is a recent example. This layer is an optional extra.
- Barraflex resilient inter-lay further reduces joint and limb fatigue
- The entire court area is seamless

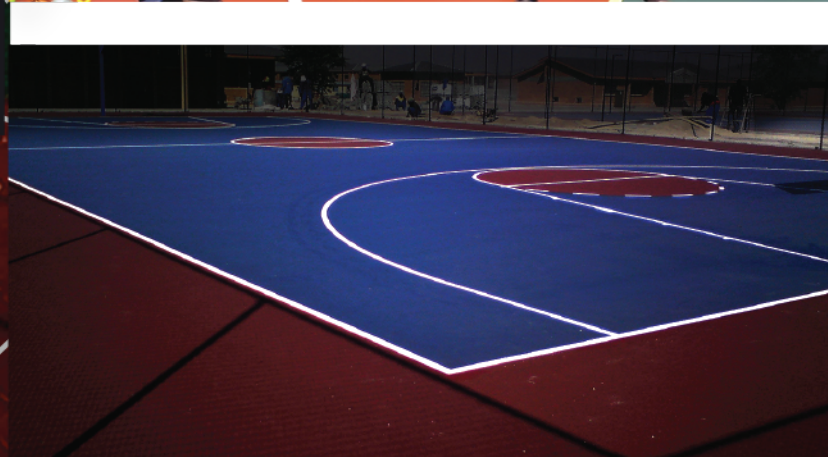

We Are Located in  
Plot No. 013 Lesetlana Ward, Ramotswa
